New Member Profiles

March 2018

We are pleased to welcome The Mill Consultancy as our newest ProShare Members this month, more details about them below.

THE MILL CONSULTANCY

The Mill Consultancy is a firm of chartered accountants and business advisers set up by Jerry Davison in 2002 following a period working in various industries including software, manufacturing and transport, based in the UK, the USA and in Africa. The firm focuses on corporate finance, with share option schemes, investor tax incentives and company secretarial work as core specialisms. Our main work is the provision of a full service solution for EMI option schemes, in that we cover both the legal documentation and share valuation requirements, and liaison with HMRC. Alongside Jerry we have a team of very experienced consultants who can also help in other areas such as raising finance, business planning and forecasting, strategy discussion and facilitation, and general business advice.
