

**ProShare**

# New Member Profiles

October 2017

We are pleased to welcome Vestd as our newest ProShare Members this month, more details about them below.

*"Whether you want to set up a share scheme for your business, or your client's, the amount of manual admin, document chasing and record keeping can really slow you down. Yet developments in technology mean you don't need to waste your time any longer. Vestd is retooling and revitalising the complicated, costly, inefficient way that private companies use and distribute equity. A complete share scheme management platform, Vestd delivers affordability, flexibility, transparency and airtight legals. Leaving you with more time to deliver value for your business."*

*We've joined ProShare, because like Vestd, the ProShare team sees the strength in employee share ownership. So, we'd like to offer any ProShare members who register with Vestd over the next month a discount for the first three months."*
